Demystifying Cybersecurity

VULNERABILITY DISCLOSURE POLICY

1. INTRODUCTION

Cybility Consulting is a small consultancy specialising in working with leaders of not-for-profit organisations empowering them to build customer trust and protect their organisation.

2. SCOPE

This vulnerability disclosure policy applies to any vulnerabilities you are considering reporting to us (the "Organisation"). We recommend reading this vulnerability disclosure policy fully before you report a vulnerability and always act in compliance with it.

3. POLICY STATEMENTS

We value those who take the time and effort to report security vulnerabilities according to this policy which will be reflected through public acknowledgement on our website.

However, we do not operate a bug bounty program and do not offer monetary rewards for vulnerability disclosures.

You must NOT:

- Break any applicable law or regulations.
- Access unnecessary, excessive, or significant amounts of data.
- Modify data in the Organisation's systems or services.
- Use high-intensity invasive or destructive scanning tools to find vulnerabilities.
- Attempt or report any form of denial of service, e.g., overwhelming a service with a high volume of requests.
- Disrupt the Organisation's services or systems.

4. REPORTING

If you believe you have found a security vulnerability, please register using the following link:
<http://cybilityconsulting.co.uk/security>

Once registered, you will be given access to our support portal to provide your vulnerability disclosure report. Please be prepared to provide the following:

- The website, IP or page where the vulnerability can be observed.
- A brief description of the type of vulnerability, for example; "XSS vulnerability".
- Steps to reproduce. These should be a benign, non-destructive, proof of concept. This helps to ensure that the report can be triaged quickly and accurately. It also reduces the likelihood of duplicate reports, or malicious exploitation of some vulnerabilities, such as sub-domain takeovers.

Demystifying Cybersecurity

5. WHAT TO EXPECT

After you have submitted your report, we will respond to your report within 5 working days and aim to triage your report within 10 working days. We'll also aim to keep you informed of our progress.

Priority for remediation is assessed by looking at the impact, severity, and exploit complexity. Vulnerability reports might take some time to triage or address. You will be able to monitor the status via the support portal.

We will notify you when the reported vulnerability is remediated, and you may be invited to confirm that the solution covers the vulnerability adequately.

Once your vulnerability has been resolved, we welcome requests to disclose your report. We'd like to unify guidance to affected users, so please do continue to coordinate public release with us.

6. UPDATES OR AMENDMENTS TO THIS POLICY

We reserve the right to periodically amend or revise this policy; material changes will be effective immediately upon the display of the revised policy. The last revision will be reflected in the "Last modified" section.

7. HOW TO CONTACT US

If you have any general questions about the Site or the information, we collect about you and how we use it, please contact our CISO at security@cybilityconsulting.co.uk
